Cash, beginning of period		351,969
Cash, end of period		\$448,302

The accompanying notes are an integral part of the condensed interim financial statements.

SKARB EXPLORATION CORP.
NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Skarb Exploration Corp. (“Skarb” or the “Company”) was incorporated pursuant to the provisions of the Business Corporations Act of Ontario on March 6, 2018. The Company’s head office is located at Suite 970 – 1055 West Hastings St Vancouver BC V6E 2E9 and the Company’s registered office is located at 4 Brule Gardens, Toronto, Ontario M6S 4J2.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. On March 14, 2018, the Company entered into an option agreement to obtain the sole and exclusive right and option to acquire a 100% right, title and interest in the RDR Gold Property located in the Province of Quebec. Please refer to Note 4 for details on RDR Gold Property.

The Company had a deficit of \$84,026 as at September 30, 2018, which has been funded by the issuance of equity. The Company’s ability to continue its operations and exploration is dependent upon obtaining additional financing.

2. SIGNIFICANT ACCOUNTING POLICIES

a) **Basis of Preparation**

The accounting policies followed by the Company as set out below have been consistently followed in the preparation of these financial statements.

b) **Statement of Compliance**

These financial statements for the period ended September 30, 2018 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements including International Accounting Standard IAS 34 – Interim Financial Reporting.

c) **Basis of Presentation**

These financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information. All monetary references expressed in these notes are references to Canadian dollar amounts (“\$”).

d) **Functional and Presentation Currency**

These financial statements have been prepared in Canadian dollars, which is the Company’s functional and presentation currency.

e) **Cash**

Cash includes cash on hand with a Canadian chartered bank.

f) **Exploration and evaluation assets**

All costs related to the acquisition, exploration and evaluation of mineral properties are capitalized as incurred and deferred until management establishes technical feasibility and economic feasibility of a property. When technical feasibility and commercial viability of a property is demonstrated, exploration and evaluation assets will be reclassified into property.

The recoverability of mineral properties and exploration and development costs is dependent on the existence of economically recoverable reserves, the ability to obtain the necessary financing to complete the development of the reserves, and the profitability of future operations. The Company has not yet determined whether or not any of its future mineral properties contain economically recoverable reserves.

SKARB EXPLORATION CORP.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)

(Expressed in Canadian Dollars)

Amounts capitalized to mineral properties as exploration and development costs do not necessarily reflect present or future values.

When properties are sold, proceeds are credited to the cost of the property. If no future capital expenditure is required and proceeds exceed costs, the excess proceeds are reported as a gain.

Exploration and evaluation assets are assessed for impairment when facts or circumstances suggest that the carrying value of an exploration and evaluation asset may exceed its recoverable amount. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. The estimated recoverable amount is determined on an asset by asset basis, except where such assets do not generate cash flows independent of other assets, in which case the recoverable amount is estimated at the cash generating unit level. When facts and circumstances suggest that the carrying amount exceeds the recoverable amount, the Company will measure, present and disclose any resulting impairment loss.

g) **Share-based payment transaction**

The fair value of share options granted to employees is recognized as an expense over the vesting period with a corresponding increase in equity. The fair value is measured at the grant date and recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

h) **Loss per Share**

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share, where applicable, is determined by adjusting the loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all warrants and options outstanding that may add to the total number of common shares.

i) **Financial Assets**

All financial instruments are classified and subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss ("FVTPL"). Cash is measured at amortised cost.

j) **Financial liabilities**

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other financial liabilities.

Financial liabilities classified as other financial liabilities are initially recognized at fair value less directly attributable transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest method. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The Company's accounts payable are classified as other financial liabilities.

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expired.

SKARB EXPLORATION CORP.
NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)
(Expressed in Canadian Dollars)

k) **Income taxes**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted at the period end date, and any adjustment to tax payable in respect of previous year.

Deferred income taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the tax rates and tax laws that have been enacted or substantively enacted by the statement of financial position date. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting, nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. As at September 30, 2018, no deferred tax asset has been recognized, as it is not considered probable that future taxable profit will be generated.

l) **Future Accounting Pronouncements**

The following standards have not been adopted by the Company and are being evaluated:

IFRS 16 - Leases

The standard was issued in January 2016. It will result in almost all leases being recognised on the balance sheet by lessees, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases. The mandatory adoption date of the standard is January 1, 2019. The Company does not currently expect the standard to have a material impact on its financial statements.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

SKARB EXPLORATION CORP.
NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)
(Expressed in Canadian Dollars)

Significant accounting judgments

- i. the consideration of whether impairment indicators exist for exploration and evaluation assets;
- ii. the determination that tax losses are currently not probable to be utilized against taxable profit; and
- iii. assumptions and expectations utilized in the calculation of stock-based compensation expense which includes the valuation of stock options.

4. EXPLORATION AND EVALUATION ASSET

	Acquisition Costs	Exploration Costs	Total
	\$	\$	\$
Opening balance	25,000	7,500	32,500
Acquisition and exploration costs	25,000	-	25,000
Balance, September 30, 2018	50,000	7,500	57,500

RDR Gold Property

Pursuant to an option agreement (the “Agreement”) dated March 14, 2018 (the “Effective Date”), the Company was granted an option to acquire a 100% right, title and interest in and to the RDR Gold Property (the “Property”) located in the Province of Quebec.

In accordance with the Agreement, the Company has the option to acquire a 100% right, title and interest in and to the Property by issuing a total of 1,550,000 common shares of the Company to the optionor, making cash payments totaling \$50,000, and incurring a total of \$1,000,000 in exploration expenditures as follows:

	Common Shares	Cash	Exploration Expenditures
Upon execution of the Agreement (paid)	-	25,000	-
Upon listing of the Company’s common shares on the Canadian Securities Exchange (the “Listing”)	300,000	-	-
On or before 14 months after the Effective Date	500,000	-	250,000
On or before 28 months after the Effective Date	750,000	25,000	750,000

The optionor retains a 1% Gross Overriding Royalty (“GORR”) on the Property. The Company has the right to purchase the first ½% of the GORR for \$1,000,000 at any time.

In addition, as the Listing Date is later than September 1, 2018, the Company paid the optionor an additional \$25,000 in cash. The Company made this payment on September 18, 2018.

5. SHARE CAPITAL

a) **Authorized Capital:**

Unlimited number of common shares with no par value.

SKARB EXPLORATION CORP.
NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)
(Expressed in Canadian Dollars)

Issued:

	Number of common shares	Nominal value of common shares \$
March 6, 2018 (date of incorporation) at \$0.005 per share (see Note 10 for subsequent event)	5,400,000	27,000
May 10, 2018 at \$0.02 per share	6,900,000	138,000
May 25, 2018 at \$0.02 per share	7,750,000	155,000
June 29, 2018 at \$0.05 per share	1,300,000	65,000
Balance, September 30, 2018	21,350,000	385,000

b) **Stock options**

On July 5, 2018, the Company implemented a share option plan (the “Plan”). The purposes of the Plan are to (a) support the achievement of the Company’s performance objectives and (b) ensure that interests of key persons are aligned with the success of the Company. On July 9, 2018, the Company granted (a) 100,000 options to acquire Common Shares to its Chief Financial Officer and director Ota Hally, and (b) 75,000 options to acquire Common Shares to its Director and Chair of Audit Committee Louis Archambeault. The options granted have an exercise price of \$0.10 and expire 10 years from the grant date and vest annually in four equal tranches starting on the first anniversary from the grant date. At September 30, 2018, the Company had granted 175,000 stock options. No options were vested as at September 30, 2018.

The stock options were accounted for at their fair value determined by the Black-Scholes option pricing model based on the vesting period and on the assumption that follow: Average expected life, 2.5 years; Forfeiture rate, NIL; Volatility, 46%, and risk free rate, 1.5%. The full grant value of \$5,075 is expensed over the expected life of the options, during the three month period ended September 30, 2018. The Company recognized \$577 of stock based compensation expense.

c) **Special warrants**

On July 30, 2018, the Company closed an offering of 1,401,500 special warrants for net proceeds of \$139,809. The Company’s directors passed a resolution on July 12, 2018 for the Company to complete an Initial Public Offering on the Canadian Securities Exchange. On August 1, 2018, the Company filed a preliminary long form prospectus (the “Prospectus”) for purposes of completing an initial public offering (the “Offering”) of 1,401,500 Common Shares upon the automatic conversion of the Special Warrants of the Company. In accordance with the terms of the Special Warrants, each Special Warrant will automatically convert into a Common Share on the earlier of: (a) the third business day following the day on which a receipt for a final prospectus filed in connection with the Offering has been issued; and (b) four months and a day from July 30, 2018 (see Note 10 for subsequent event).

6. RELATED PARTY TRANSACTIONS

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consists of executive and non-executive members of the Company’s Board of Directors and corporate officers.

During the period ended September 30, 2018, no common shares were issued to related parties and 2,000 Special Warrants were purchased by persons who are considered related parties of the Company.

SKARB EXPLORATION CORP.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)

(Expressed in Canadian Dollars)

Remuneration of \$577 attributable to key management personnel for the period ended September 30, 2018 related to share-based compensation (Note 5).

The Company implemented a share option plan and granted share options to an officer and a director of the Company, see Note 5.

The Company repurchased shares from related parties subsequent to September 30, 2018, see Note 10 for subsequent event.

7. CAPITAL MANAGEMENT

The Company's capital consists of share capital, special warrants and option reserve. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support exploration. The Board of Directors does not impose quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain the future development of the business.

In the management of capital, the Company considers all types of equity and is dependent on third party financing, whether through debt, equity, or other means. Although the Company has been successful in raising funds to date, there is no assurance that the Company will be successful in obtaining required financing in the future or that such financing will be available on terms acceptable to the Company.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital requirements.

8. FINANCIAL INSTRUMENTS

a) Fair Value

The fair value of the Company's financial instruments approximates their carrying value as at September 30, 2018 because of the demand nature or short-term maturity of these instruments.

b) Financial Risk Management Objectives and Policies

The Company's financial instruments consist of cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

i) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. As at September 30, 2018, the Company has cash on deposit with a large Canadian bank. Management believes the risk of loss to be remote.

ii) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet its obligations under financial instruments. The Company manages liquidity risk by maintaining sufficient cash balances. Liquidity requirements are managed based on expected cash flows to ensure that there is sufficient capital to meet short-term obligations. As at September 30, 2018, the Company had a working capital of \$384,201 (including GST receivable), including cash of \$448,302.

SKARB EXPLORATION CORP.
NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)
(Expressed in Canadian Dollars)

iii) **Market Risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity and equity prices. The Company does not expect exchange rates, and commodity and equity prices to have a material impact to the Company.

iv) **Rate Risk**

Interest rate risk is the risk that the future cash flows from a financial instrument will fluctuate due to changes in market interest rates. The Company holds its cash in bank accounts that earn variable interest rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on the estimated fair value of the Company's cash and cash equivalent balances as of September 30, 2018.

9. COMMITMENTS

The Company has no capital or operating commitments as at September 30, 2018. An option Agreement containing terms and conditions to obtaining RDR property is as disclosed in Note 4.

10. SUBSEQUENT EVENTS

On December 1, 2018, 1,401,500 Common Shares were issued upon the automatic conversion of the Special Warrants of the Company.

On December 10, 2018, the Company repurchased 5,400,000 Common Shares, which were issued on March 6, 2018, from related parties of the Company in exchange for the issuance of two promissory notes. Each promissory note has a principal amount equal to \$13,500 (the original subscription price for the Common Shares), payable on demand with interest calculated at the rate of 3% per annum. The Company also has the right to repay any portion of the notes payable at its discretion.
